

Notice of construction activities on Seagreen Offshore Wind Farm

Date of Issue 23/03/23 Notice Number 08/2023	
----------------------------------------------	--

Seagreen Offshore Wind Farm – Wind Turbine Generator Foundation Installation.

Contact Details for Marine Coordination and Fisheries Liaison

The following contact can provide more information if required:

Telephone Number, 24/7	+44 (0) 333 344 5255
Duty Marine Coordinator	seagreenmarinecoordination@sse.com
Address	Seagreen Wind Energy Ltd, Windy Waves House Montrose Port Authority, South Quay Ferryden, Montrose, Angus DD10 9SL.

Fisheries liaison is coordinated by Brown and May Marine Ltd. For all fisheries enquiries, Willie Watt is primary contact:

Telephone Number	+44 (0) 1379872144
Email	Willie.w@Brownmay.com
Address	Brown and May Marine
	Progress Way
	Mid Suffolk Business Park
	Eye, Suffolk
	IP23 7HU

1. Area of planned activity.

Wind turbine generator foundation installation will continue within the boundary of the Seagreen offshore wind farm. The Seagreen site boundary is shown below in fig 1.

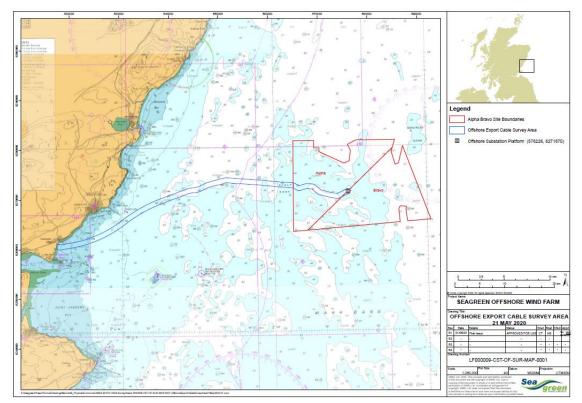

Fig 1 – Seagreen site boundary – in red.

2. Activity Description.

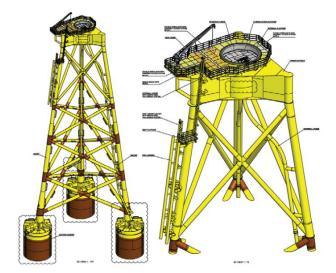

On behalf of Seagreen Wind Energy Ltd. Seaway 7 will continue the installation of three-legged suction caisson wind turbine generator foundation structures.

The foundation structures will be towed to the site on barges. On arrival at the Seagreen development site they will be installed by the heavy lift vessel Saipem 7000. The tug Sovereign will assist the Saipem 7000 with barge mooring operations. Foundation grouting operations will take place from the EDT Hercules. Infield support will be given by Fram Princess.

Saipem 7000 and associated vessels are expected to arrive at site from the 27th of March.

A drawing of the foundation structures is shown below.

Details of the various vessels involved in the foundation installation are shown below in section 3.

3. Vessels involved in this activity.

4. Safety Zones

Following consideration by Scottish government ministers it has been agreed that during the construction phases of the Seagreen development mandatory rolling 500m safety zones will be established around each Wind Turbine Generator and/or their foundations whilst construction works are in progress, as indicated by the presence of a construction vessel. The safety zones will be triggered whenever a vessel is on station at a WTG and undertaking construction activities.

In addition, mandatory pre commissioning 50m safety zones will be established around each Wind Turbine Generator and/or their foundations when construction works have been completed but prior to Wind Farm commissioning or where construction works have only been partially completed. These safety zones will be active at any structure during the construction phase where a construction vessel is not present at a Wind Turbine Generator.

MARINERS ARE REMINDED to navigate with caution and keep continued watch on VHF Ch.70/16 when navigating the area.

5. Distribution List

A central list of recipients is maintained by the Marine Coordinator; if you are not the appropriate recipient of these notices, or do not wish to receive the notices in the future, please contact us at the address included in Section 1 of this notice.
