Seagreen Offshore Wind Farm – Seagreen Export Cable Over-trawl Survey

Contact Details for Marine Coordination and Fisheries Liaison

The following contact can provide more information if required:

| | |
|-------------------------|---|
| Telephone Number, 24/7 | +44 (0) 333 344 5255 |
| Duty Marine Coordinator | seagreenmarinecoordination@sse.com |
| Address | Seagreen Wind Energy Ltd, Windy Waves House Montrose Port Authority, South Quay Ferryden, Montrose, Angus DD10 9SL. |

Fisheries liaison is coordinated by Brown and May Marine Ltd. For all fisheries enquiries, John Watt is primary contact:

| | |
|------------------|---|
| Telephone Number | +44 (0) 1379872144 |
| Mobile number | +44 (0) 7590 880746 |
| Email | Willie.w@Brownmay.com |
| Address | Brown and May Marine Progress Way Mid Suffolk Business Park Eye, Suffolk IP23 7HU |

1. Activity Description

On behalf of Seagreen Wind Energy Ltd, the Scottish Fishing Federation vessel Sardonyx will conduct an over-trawl survey of the Seagreen export cable route. The selected area is shown below in fig 1. The purpose of the trawl sweep operations is to provide fishermen with assurance that it is safe to return to normal fishing operations in an area where the seabed has been disturbed after the laying of the Seagreen Offshore Windfarm Offshore Export Cables.

The selected area including coordinates is shown below in fig 1 and table 1.

Sardonyx is expected to arrive at the selected location on or around Tuesday 28th of March with operations expected to be completed within 3 days.

NOTICE TO MARINERS

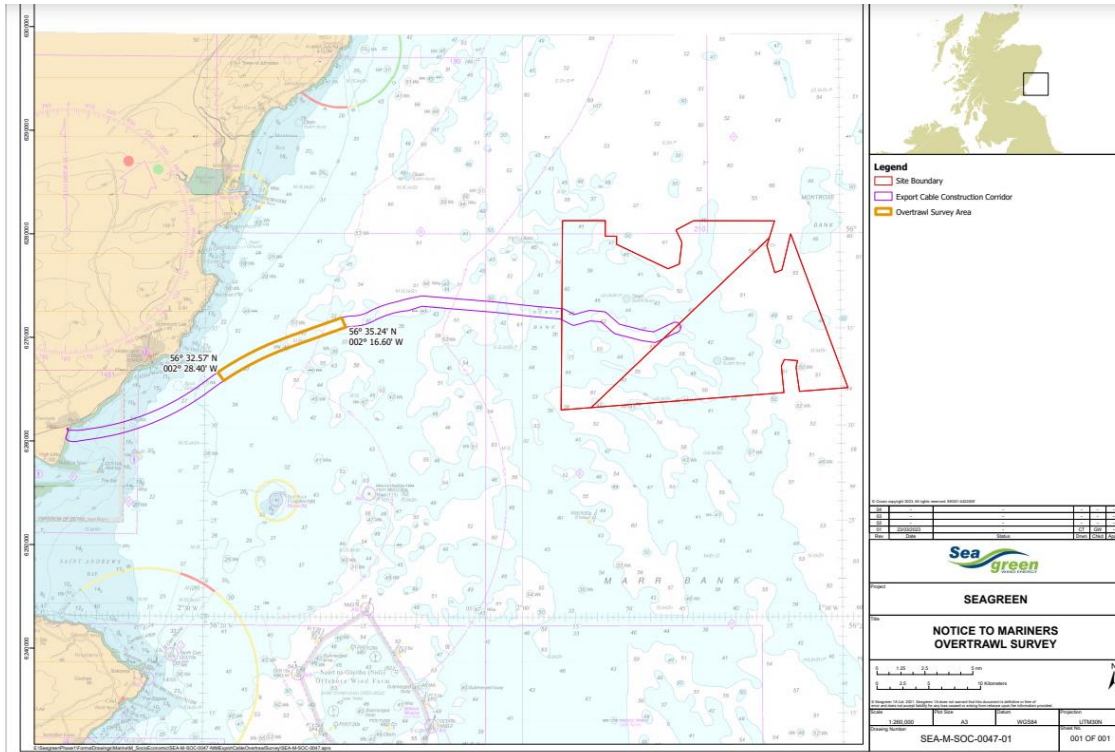

Fig 1 – Over-trawl survey location shown by orange box

| ID | Latitude (DDM WGS 84) | Longitude (DDM WGS 84) |
|---------------|-----------------------|------------------------|
| Western point | 56° 32.570' N | 002° 28.400' W |
| Eastern point | 56° 35.240' N | 002° 16.600' W |

NOTICE TO MARINERS

3. Safety Zones

Following consideration by Scottish government ministers it has been agreed that during the construction phases of the Seagreen development mandatory rolling 500m safety zones will be established around each Wind Turbine Generator and/or their foundations whilst construction works are in progress, as indicated by the presence of a construction vessel. The safety zones will be triggered whenever a vessel is on station at a WTG and undertaking construction activities.

In addition, mandatory pre commissioning 50m safety zones will be established around each Wind Turbine Generator and/or their foundations when construction works have been completed but prior to Wind Farm commissioning or where construction works have only been partially completed. These safety zones will be active at any structure during the construction phase where a construction vessel is not present at a Wind Turbine Generator.

MARINERS ARE REMINDED to navigate with caution and keep continued watch on VHF Ch.70/16 when navigating the area.

4. Distribution List

A central list of recipients is maintained by the Marine Coordinator; if you are not the appropriate recipient of these notices, or do not wish to receive the notices in the future, please contact us at the address included in Section 1 of this notice.
